Cultural operator – who are you?

Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	Cultural cooperation
Description or summary of the proposed project	Through several events and projects coordinated by Tropisme, since 2021, we've forged relationships with artists, creative hubs and institutions accross the African continent. Also working closely with African diasporas in France.
	We are currently working on :
	 the second edition of our Euro-Africa Biennale, which we co-organise with the city of Montpellier

	 the coordination of a project funded by the French Ministry of Foreign Affairs, to help structure artistic projects in the fields of Hip-Hop, action sports and CCIs across 4 African countries : Algeria, Cameroon, Ghana and Tanzania
	 the coordination of a project funded by the French Institutes in Yaoundé and Kinshasa to facilitate exchanges and co-creation between video game studios in all three countries
	 the support of a projet funded by the French Ministry of Foreign Affairs, to amplify and structure the fashion industry in Botswana
	The aim through all these projects that we conduct all year long, is to feed our Biennale. The event represented for its first edition in 2023 :
	- 100 events across 7 days
	- In 30 different spaces all around Montpellier
	- 20 countries represented
	- 100 guests from the African continent
	- 5 great litterary meetings
	 350 participants for the Euro-Africa Water days congress
	- Over 50 African entrepreneurs
	- Over 30,000 visitors
	It was a success.
	But we would now like to empower the "Euro" in Euro-Africa Biennale, by developping year round programmes for visual artists from the African and European continents.
	The first step for us is to find partners across the European continent who share similar activities or interests. Hubs or companies that work with African artists and artists from African Diasporas, across different medias and with whom we could create on a rich and empowering exchange program.
	Here in Montpellier (south of France) we have residency spaces and a community of around 50 visual artists in our hub.
	Our aim is to use our facilities and internal competencies to promote inter-continental creation and cooperation.
